Pell Payment Schedule

For information on the Pell Grant Payment Schedule, please refer to the 2004-2005 Pell Grant Payment Schedule on www.ifap.ed.gov.

Pell Calculation Table

Introduction

The Federal Pell Grant Calculation chart briefly describes the programs of study and academic calendar to which each Pell Grant Payment Methodology applies. It also documents the data elements that can be used to calculate the student's Pell award under each methodology and the acceptable values for each element. Finally, it depicts the relationship between Scheduled Federal Pell Grant, Annual award, and the result of the Payment Methodology calculation. For further details and examples of Pell Grant calculations, please refer to the Student Financial Aid Handbook, Pell Grant chapter.

Beginning with the 2004-2005 award year, the COD System will no longer automatically calculate a student's Pell award using the following data elements:

- Academic Calendar
- Payment Methodology
- Weeks of Instructional Time Used to Calculate Payment
- Weeks of Instructional Time in Program's Definition of Academic Year
- Credit/Clock Hours Used to Calculate Payment
- Credit/Clock Hours in this Student's Program of Study's Academic Year

For Full Participants, data submitted in these elements will not be edited, stored, or returned on a Common Record response document. For Phase-In Participants, data submitted in these tags will not be edited but will continue to be stored by the COD System and returned on a response document. Although these elements are not applicable for the 2004-2005 award year and forward, they can continue to be used as a guide when calculating a student's Pell award amount.
